In order to install other languages you must use the apex_5.1.zip file which contains the extra files referenced below. If you previously downloaded apex_5.1_en.zip, then you do not need to re-install Oracle Application Express. Simply download apex_5.1.zip and unzip the file into the same directory where you unzipped apex_5.1_en.zip.

About Running Oracle Application Express in Other Languages

The Apex Language Server is an implementation of the Language Server Protocol 3.0 specification. The Language Server Protocol allows a tool (in this case, VS Code) to communicate with a language smartness provider (the server). VS Code uses the Apex Language Server to show outlines of Apex classes and triggers, code-completion suggestions, and syntactic errors.
