Apex Developers Guide

Getting Started with Apex Apex is a strongly typed, object-oriented programming language that allows developers to execute flow and transaction control statements on the Lightning Platform server, in conjunction with calls to the API. Writing Apex Apex is like Java for Salesforce.

Apex Developer Guide - Salesforce Developers

Apex provides if-else statements, switch statements, and loops to control the flow of code execution. Statements are generally executed line by line, in the order they appear. With control flow statements, you can make Apex code execute based on a certain condition, or have a block of code execute repeatedly. Working with Data in Apex
