Viewpoints is one of the very important concepts in ArchiMate 3.Each viewpoint contains a dedicated set of ArchiMate elements that allows architect designers to model a specific aspect of an enterprise architecture.

Full ArchiMate Viewpoints Guide (Examples Included)

When this architecture is implemented the benefits will become apparent as more code can be shared instead of being duplicated. Several components in the presentation layer can share the same component in the business layer, and all components in the business layer share the same component in the data access layer.
